## Connecting to the Library Printer

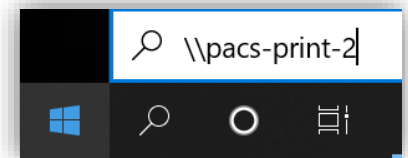

The steps listed below highlight how to connect to the Library Printer from a student laptop that is connected to the PACS-Students WIFI. Once these steps are complete you will see the Library Printer as an available printer on your laptop.

! You must be on campus and connected to the PACS-Student WIFI for this to work.

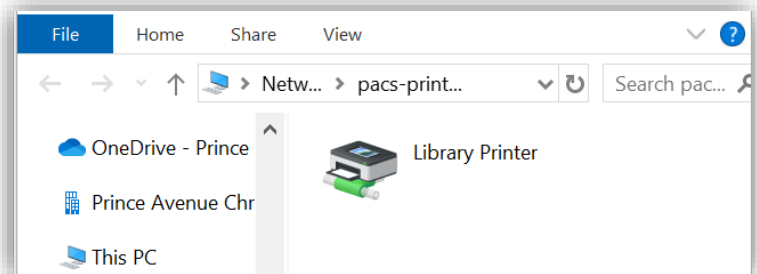

- Click the start menu icon.

- Type `\\pacs-print-2` and hit "Enter"

- Double-click the Library Printer icon
  - This will initiate the connection to the Library Printer. It will likely take a minute to finish the connection process.

- Once you see the Library Printer que everything is done.
